Benefits

Enable Your Entire Community of Administrators

These trainings are delivered in a web-based, self-paced format, enabling you to deploy training to a large number of employees throughout multiple locations in a shorter period of time. And because personnel changes are likely, you can ensure that all team members, new and old alike, are given the same training on the administration of your LifeSize products.

Drive Adoption

Research has proven that when end users comprehend how to fully utilize a product, they will recognize the value the product provides and will quickly begin applying it in their daily routines. eLearning: LifeSize Endpoint Administration enables your employees to become productive faster through the effective administration of your LifeSize solution.

Accelerate ROI

eLearning: LifeSize Endpoint Administration can help you ensure the success of your LifeSize deployment and accelerate the ROI of your LifeSize system.

Features

Engaging and Fun

Training episodes are delivered via HD video and visually instruct the viewer on the administration of LifeSize products. Viewers can stop and resume the videos with the click of a mouse and can rewind to revisit a topic of interest. Gone are the days of voice-over PowerPoint; this is learning in high definition!

Accessible Anytime, Anywhere

Because these trainings can be deployed on your intranet or LMS, or accessed via a LifeSize-hosted web environment, you can rely on your training to be accessible from anywhere at any time.

Downloadable Content

This solution provides quick and easy access to supplemental downloads such as technical publications and user guides.

Customizable

The eLearning: LifeSize Endpoint Administration videos can be customized with company logos.
