Benefits

- Enable Your Entire Community of End Users
- Drive Adoption
- Accelerate ROI

Features

- Engaging and Fun
- Accessible Anytime, Anywhere
- Downloadable Content
- Interactive Quizzes
- Customizable

LifeSize Adoption Solution Kit (A.S.K.)

Training for the LifeSize End User

The LifeSize Adoption Solution Kit, or A.S.K., is a subscription-based, hosted learning environment specifically for the end user community of LifeSize products. A.S.K. delivers training via a series of short and engaging HD video episodes, giving your community of users a clear and intuitive way to learn how to use their LifeSize products. Training content in A.S.K. is available for LifeSize products and segmented into quick start and expert categories.

A.S.K. can be hosted on your intranet or Learning Management System (LMS) or by LifeSize, giving your team access to the training they need when it's most convenient for them.

Benefits

Enable Your Entire Community of End Users

The A.S.K. environment is delivered via a web-based, self-paced format, enabling you to deploy training to a large number of employees throughout multiple locations in a shorter period of time. And because personnel changes are likely, A.S.K. helps you ensure that all team members, new and old alike, are given the same end user training on the use of your LifeSize products.

Drive Adoption

Research has proven that when end users comprehend how to fully utilize a product, they will recognize the value the product provides and will quickly begin applying it in their daily routine. A.S.K. enables your employees to become productive faster through the use of your LifeSize solution.

Accelerate ROI

A.S.K. can help you ensure the success of your LifeSize deployment and accelerate the ROI of your LifeSize system. The quick start section can get end users up and running on their first call in just a few minutes.

Features

Engaging and Fun

Training episodes in A.S.K. are delivered via HD video and visually instruct the viewer on the use of LifeSize products. Viewers can stop and resume the videos with the click of a mouse and can rewind to revisit a topic of interest. Gone are the days of voice-over PowerPoint; this is learning in high definition!

Accessible Anytime, Anywhere

Because A.S.K. can be deployed on your intranet or an LMS, or accessed via a LifeSize-hosted web environment, you can rely on A.S.K. training as an easily accessible reference tool and can launch A.S.K. from anywhere at any time.

Downloadable Content

A.S.K. provides quick and easy access to supplemental downloads such as technical publications and user guides.

Customizable

The A.S.K. videos can be customized with company logos.

More Information
