Scalable, secure infrastructure solutions to meet your business needs.

ON-PREMISES VIDEO INFRASTRUCTURE

LifeSize® UVC Platform™ Video Infrastructure for Ultimate Control & Flexibility

The LifeSize UVC Platform is a fully integrated, virtualized software platform that consolidates multiple video infrastructure products and makes them instantly available from one common interface.

Deployment Options

UVC Virtual Machine Software

OR

UVC Hardware Appliance

LifeSize® UVC Video Center™

The world's most powerful one-button HD (720p30) streaming, recording and auto-publishing solution ensures that live and on-demand videos are easily accessible from any location or device, including iOS phones and tablets. With UVC Video Center anyone can record and broadcast business presentations, sales meetings, data and more.

LifeSize® UVC Transit™

A complete firewall and NAT solution that enables secure Full HD (1080p30) video calls within and across networks. With standards-based H.460 and SIP firewall/NAT traversal, you can talk to colleagues, partners and suppliers reliably and securely.

LifeSize® UVC Access™

This standards-based gatekeeper provides intelligent routing and call control of H.323-based video communications networks. UVC Access offers simplified dialing plans, zone and bandwidth management and added security through H.235 authentication.

LifeSize® Bridge™

Multipoint Control Unit

Support intelligent growth of HD video in your organization with unrivaled quality and price/performance for multiparty video conferencing with up to 48 participants, or hundreds of participants when cascading multiple bridges. Our standards-based offering supports any codec, speed, resolution, layout or port without compromise.

LifeSize® Control™

Video Systems Management Software

Manage your video communications networks—centrally, reliably. LifeSize Control provides secure, real-time management and workflow, web-based scheduling, on-demand reporting and centralized software upgrades and provisioning. LifeSize Control is open and standards-based to manage heterogeneous video networks.

LifeSize® ClearSea™

Extending HD Video to Mobile Devices

An enterprise-class client/server solution for desktop and mobile video collaboration, LifeSize ClearSea is open and interoperable; users can seamlessly connect to any standards-based video collaboration system or infrastructure solution in seconds. LifeSize ClearSea Server is available as a hardware appliance or virtual machine software and includes a state-of-the-art HD desktop client for PC/Mac and Android/iOS smartphones and tablets. It also supports broader deployments and greater integration into your existing environments.

LifeSize® Networker™

ISDN Gateway

The all-in-one gateway, LifeSize Networker provides complete, cost-effective connectivity for IP to ISDN networks, serial or PRI interface. LifeSize Networker supports up to 8 sites over 1 PRI or 4 BRI to connect all of your LifeSize endpoints, simply.

HOSTED INFRASTRUCTURE

LifeSize® Connections™ HD Video Collaboration in the Cloud

A cloud-based business-class HD video collaboration platform that delivers:

- Seamless HD calling from any PC, Mac or LifeSize endpoint
- 9-way HD video/voice encrypted calling with data sharing (dual stream)
- Auto-configuration of video systems; zero configuration for Mac or PC
- Subscription-based, no upfront capital investment
- Simple deployment without IT expertise
- NAT/firewall traversal, bridging, global directory and management
- Guest invitation capability, up to two guests per call
