## New Features and Resolved Issues

Following are the major new features and resolved issues in this release. Numbers in parentheses are used for internal tracking.

- This release includes an update to OpenSSL version 1.0.1g to address the heartbleed vulnerability.
- Client failures when registered to ClearSea Server through the WAN interface no longer occur. (CSC-301)
- Client failures during recording playback no longer occur. (CSC-286)

## Known Issues

Following are known issues and workarounds, if available. Numbers in parentheses are used for internal tracking.

- If LifeSize ClearSea Client attempts to join a multiway call hosted by LifeSize UVC Multipoint, and UVC Multipoint has no available ports, the call fails and the original call is also disconnected.  
**Workaround:** Redial the call and add a new caller when UVC Multipoint has available ports. (MC-484)
- An audio file exported in the **.wmv** format from the LifeSize ClearSea Client recorder window stops playing after 5 minutes. (MC-456)
- Upgrading Mirial ClearSea Client v7.1.x or v8.0.x on a Mac OS X to LifeSize ClearSea Client does not uninstall the older version. **Workaround:** After the upgrade, delete the older Mirial ClearSea Client version. (MC-388)
- When a media failover occurs, presentation from ClearSea Client does not switch to the master. (MC-804)
- Resizing the window during a call on Acer Iconia W5 causes video to be shifted and clipped. (MC-938)
- An occasional system freeze may occur after logging in on Acer Iconia W5. **Workaround:** Reboot the device. (MC-939)
- Audio and video synchronization may be misaligned in calls between ClearSea Client and LifeSize Icon. (MC-872)

## Interoperability

LifeSize ClearSea Client is supported on the following operating systems:

- Android v2.2 or later
- iOS v5.0 or later
- Microsoft Windows XP, 2003, Vista, 7, 8
- Mac OSX 10.6 or later

## Contacting Technical Services

LifeSize Communications welcomes comments about our products and services. Send feedback about this or other LifeSize products to [feedback@lifesize.com](mailto:feedback@lifesize.com). Refer to [lifesize.com/support](http://lifesize.com/support) for additional ways to contact LifeSize Technical Services.
